

CAL POLY

REPORT

California Polytechnic State University, San Luis Obispo

Vol. 39, No. 29

April 2, 1987

Session today

Three candidates for Academic VP post scheduled

Three additional candidates for the position of Vice President for Academic Affairs and Senior Vice President have been invited to campus.

The candidates, and the dates they will be on campus, are Dr. Edward Wilson, acting deputy administrator for regional research and special grants, Cooperative State Research Service, U.S. Department of Agriculture (April 2-3); Dr. Barbara Richter, dean and professor, College of Applied Sciences, Eastern Illinois University (April 6-7); and Dr. Allen Christensen, acting provost and academic vice president, Cal Poly Pomona (April 9-10).

Faculty, staff and students are encouraged to attend informal receptions to meet and ask question of each candidates. The schedule:

Today (April 2), 3:30-4:30 pm
(Staff Dining Room)—Dr. Wilson;

Monday, April 6, 3:30-4:30 pm
(Staff Dining Room)—Dr. Richter; and

Thursday, April 9, 4-5 pm (Staff Dining Room)—Dr. Christensen.

The three remaining candidates will be interviewed during the period of April 13-21.

Poly Royal is not academic holiday

Malcolm W. Wilson, interim vice president for academic affairs, reminds all faculty that classes scheduled during Poly Royal from

noon, Thursday, April 23, through Saturday, April 25, will not be held. Although classes will not be held, students and faculty are expected to participate in the preparation and activities of Poly Royal exhibits and events. These days are not academic holidays.

Riener will head Business Adm. Dept.

Dr. Kenneth D. Riener, a member of the faculty since 1983, has been named head of the Business Administration Department.

He succeeds Dr. Dan Bertozzi Jr., who has returned to full-time teaching after serving nearly three years as department head. The appointment was effective at the start of Spring Quarter.

Riener earned an undergraduate degree in mechanical engineering at the University of Idaho and two advanced business degrees from Purdue University. He served on the finance faculties at Texas A&M and Concordia University in Canada before coming to Cal Poly.

A cost analysis officer while serving in the U.S. Air Force, Riener has taught courses in financial management, the theory of finance, investments and international finance. In addition, he has introduced microcomputers into the coursework.

Riener has contributed articles to Financial Management, Journal of Bank Research, Issues in Bank Regulation, the Financial Review, and Business Horizons. He also contributed papers to the Proceedings of the Administrative Sciences Association of Canada, and his 1980 contribution was chosen best paper in the international division.

Cal Poly/UC Davis proposal selected

A joint proposal submitted by Cal Poly and UC Davis for the establishment of a dairy products research center was selected by the National Dairy Promotion and Research Board to share in an annual allocation of \$1.5 million for the next five years.

The Cal Poly/UC Davis proposal was one of six selected by NDPRB from 12 that were submitted from across the nation. All but one involved two or more universities.

Dr. Eugene Starkey, head of the Dairy Science Department, said the new grant will be matched by California dairy industry organizations and the state to fund activities of the university's Dairy Products Technology Center.

Brown resigns as Student Affairs dean

Russell H. Brown resigned as dean of Student Affairs on March 19. A Cal Poly administrator for nine years, Brown previously was vice president for student affairs at the University of North Dakota, and dean for student development at the University of Nebraska.

President Baker has met with Student Affairs Division officials to seek their advice in naming an interim dean to serve until the position is permanently filled. In addition, President Baker will soon establish a consultative committee to advise him on the appointment of a new dean of student affairs. In the meantime, Dr. Lorraine Howard will supervise the Student Affairs Division.

William Windom to appear as Thurber

Noted stage, film, and television actor William Windom will bring his humorous one-man show, "Thurber I," to the Theatre on Friday, April 3, at 8 pm. Based on the writings of humorist James Thurber, Windom has been doing the show since 1972.

He received an Emmy award for his performance in "My World And Welcome to It," the television series based on the works of Thurber, who is primarily remembered for his stories and drawings in *The New Yorker* magazine.

Windom has had a successful career both on Broadway and off-Broadway. Currently he plays Dr. Seth Haslett in the popular television series, "Murder, She Wrote." The actor has appeared in such films as "To Kill a Mockingbird," "For Love or Money," "The Americanization of Emily," and "Escape from the Planet of the Apes."

Windom's performance will be the second event in a new series titled Center Stage, presented by the Center for the Arts. Center Stage features professional performers and companies in drama and dance.

Prices for the presentation are \$12 for preferred seating and \$10 for premium seating for the public. Student prices are \$8 and \$5.

Tickets can be purchased at the Theatre Ticket Office between 10 am and 4 pm on weekdays, or reservations can be made by calling ext. 1421.

Arden Trio to play in Theatre April 4

The critically acclaimed chamber music ensemble, "The Arden Trio," will perform as part of the Quintessence Series at the Theatre on Saturday, April 4, at 8 pm.

The group, which played at the university two years ago,

features Suzanne Ornstein on violin, Clay Ruede, cello, and Thomas Schmidt, piano. The group was formed while its members were graduate students at the Yale University School of Music.

The Arden Trio made its Carnegie Hall recital debut in 1981 and went on to win the Council Artist Guild Award in the same year.

For its return to Cal Poly, the group has chosen to play Trio in E-flat major, Op. 1, No. 1, by Beethoven; Trio in C minor, Op. 66, by Mendelssohn; and a relatively new work, Trio (1984) by Paul Schwartz.

The concert is sponsored by the Center for the Arts. Tickets are \$10 and \$8 for the public and \$6 for students. They are available at the Theatre Ticket Office between 10 am and 4 pm on weekdays. For reservations call ext. 1421. MasterCard and Visa are both accepted.

Leisure educator on campus this week

A renowned leisure educator has been on campus this week, lecturing in selected recreation administration classes, meeting with campus officials, and consulting with recreation administration faculty.

Dr. Geoffrey Godbey, a professor in parks and recreation from Penn State University, is here to assist in the development of a new General Education and Breadth course — Leisure Education and Lifestyle Management.

Faculty, staff and students interested in meeting Dr. Godbey are invited to a social in Vista Grande Cafeteria today (April 2), from 5-7 pm.

For additional information, call Dr. Lynn M. Jamieson, Recreation Administration Department, ext. 1246.

Grammy winner to perform April 11

A group that recently won a Grammy Award will perform in Chumash Auditorium on Saturday, April 11, at 7:30 and 9:30 pm.

Yellowjackets, described as a state-of-the-art pop/jazz group that also combines rock, rhythm and blues, and Latin in its electronically bolstered tunes, was awarded a Grammy for "best instrumental performance" of its song "And You Know That" from its latest album, "Shades."

Tickets for the Yellowjackets performances are available at the UU Ticket Office and Boo Boo Records. Advance prices are \$10.75 for Cal Poly students and \$11.75 for the public. Prices will be \$1 more at the door.

The event is sponsored by the Concerts Committee of Cal Poly's Associated Students Inc.

Wellness Decathlon

A Wellness Decathlon will be held on Tuesday, April 7, from 10 am to 3 pm in UU Plaza. Fourteen stations will be available to assess your physical, emotional, social, spiritual and intellectual health. All Cal Poly students, faculty and staff are encouraged to participate. The finish line, staffed by Health Center professionals, will provide follow-up information for decathlon competitors. All events are free of charge. For more information contact Health Education at ext. 1211.

CPR

Cal Poly Report is published weekly during the academic year by the Public Affairs Office. Typewritten, double-spaced copy may be submitted to Jo Ann Lloyd, Admin. 206, by 4 pm the Thursday prior to the next publication.

Library Associates to hold book sale

Outstanding bargains in old and new books await buyers at the eighth annual Cal Poly Library Associates' Book Sale on Saturday, April 4.

More than 4,000 books, sorted into subjects from agriculture to zoology, will go on sale at 10 am in front of the Kennedy Library. The sale will continue on Monday, April 6, and Tuesday, April 7, from 10 am to 3 pm in the library courtyard.

Bargain items, including new and used trade, text and children's books, both hard-bound and paperback, will be for sale at 50 cents per inch. This year's sale is particularly strong in travel, communications, fiction, and health sciences.

A selection of specially priced books includes several sets of encyclopedias, art books, and plates of European architecture from broken portfolios.

Books have been donated by members of The Library Associates; students, faculty, and staff; and several campus organizations. Proceeds from the sale will be used to purchase special materials for the library.

For more information about the sale or membership in The Library Associates, call the Special Collections Department, ext. 2305.

'Computers at Noon' to start April 7

The new "Computers at Noon" series will begin April 7 with a presentation by Vice President for Information Systems Art Gloster.

Titled "A Philosophy for Campus Computing," Dr. Gloster's talk will begin at noon in the Faculty/Staff Dining Room.

The seminar/discussion series will feature computer topics of interest and will offer a forum to share knowledge, demonstrate

technology and present developments in the field.

All programs in the "Computers at Noon" series are scheduled for Tuesdays at noon in the Faculty/Staff Dining Room.

Services available

Did you know . . . there is an office on campus that offers word processing, campus phone dictation, and telecopier services for a nominal fee? Additional services provided by General Office that are free of charge include Word-Perfect training and temporary clerical replacement. For more information regarding General Office services call ext. 2181, or stop by Admin. 125.

Rec Sports offers leisure classes

Recreational Sports offers a wide variety of fitness and leisure classes for Spring Quarter. All classes are taught by qualified instructors. Classes last between 4 to 8 weeks and average \$18. Registration begins the first week of each quarter and classes start one or two weeks later.

Classes are held on campus and are available to all members of the Cal Poly community.

Two classes are offered during the noon hour on Tuesday and Thursday beginning April 14: Faculty/staff weight training and coached swim workout.

Other classes in Aerobics, Massage, Shotokan Karate, Country Western Dance, Sign Language, Clogging and Advanced Lifesaving are also offered during the quarter. For information on starting dates, times, locations, and prices, check the Spring Quarter brochure.

For registration or information, stop by the Recreational Sports Office, UU 118, or call ext. 1366.

Norwegian speakers to present lectures

A Norwegian professor and a Norwegian diplomat will present lectures April 2 and 3.

Dr. Helge Ronning, professor of Scandinavian studies at the University of Oslo, Norway, will discuss "Ibsen and Liberal 19th Century Society" at 11 am on Thursday, April 2. The talk will be in Erhart Agriculture 221.

An editor of Samtiede, one of the most important cultural journals in Scandinavia, Ronning is currently on sabbatical at UC Santa Barbara studying American media. He will also speak on "Recent Scandinavian Literature" at 4 pm in English 221. Both presentations are being sponsored by the English Department.

The second Scandinavian visitor is Dr. Mette Masst, a developmental sociologist who holds Norwegian diplomatic status. She will examine "The Role of Women in African Agriculture" at 7:30 pm in Fisher Science 286. Dr. Masst has written about the history of agriculture in Africa. An expert on both Kenya and Zimbabwe, she currently works for the Norwegian Embassy on projects connected with the relationships between large and small farming operations in Zimbabwe. In addition, she is known internationally for her expertise on the role of women in African society.

Masst will explore "Current Race Relations in African Society" on Friday, April 3, at 3 pm in Science B-5. Both lectures are sponsored jointly by the Schools of Agriculture and Liberal Arts.

Awards reminder

Nominations for 1986-87 Outstanding Staff Employee are due April 3. Send completed nomination forms to: Al Amaral, chairman, Outstanding Staff Employee Award Selection Committee Foundation Administration Office, TRLR 15T-2.

Butler new interim associate dean

Dr. J. Kent Butler, a professor of industrial engineering, is serving as interim associate dean of the School of Engineering.

Butler was named to serve in the post vacated by Dr. Peter Y. Lee, who is now the interim dean of engineering. President Warren J. Baker made the appointment with the recommendation of Lee and Dr. Malcolm Wilson, interim vice president for academic affairs.

A member of the faculty since 1977, Butler earned his bachelor's, master's and doctoral degrees at Arizona State University.

Speaker to explore primitive culture

The story of the Tasaday — the stone-age people who made headlines in the 1970s when they first met modern society — will be featured in a program on Monday, April 6, at 7:30 pm in Chumash Auditorium.

John Nance, author and photo-journalist who spent more than 12 years in Asia, will present the film and lecture titled "A Message from the Stone Age." The film recreates the Tasaday's life in a Philippine rain forest before they met the outside world.

According to Nance, the Tasaday thought they and their friends were the only people on earth. He claims they sustained their society for an unknown number of generations, balancing human needs with the plants, animals, and spirits of their forest. The Tasaday had no metal, cloth, or wheels until recently and did not know agriculture or the domestication of animals.

Recent photographs show major transformations in Tasaday life, while in many ways they continue to adhere to traditional values. The resulting tensions are creating serious problems, says Nance.

A former Associated Press correspondent, Nance visited the Tasaday about a dozen times between 1971 and 1986. His visits with the Tasaday have resulted in three books.

The aim of his presentation is to broaden understanding of modern cultures as well as that of ancient lifeways; to expand awareness of the universal family of man; and to consider modern attitudes about war, peace, communications, and change.

Tickets for the program are \$2 for students, children, and senior citizens, and \$3 for the public. They will be available at the door. The presentation is sponsored by the ASI Speakers Forum.

Cal Poly to offer minor in packaging

A new interdisciplinary minor in packaging has been approved by the Chancellor's Office. It is being added to the systemwide listing of formal programs, according to John Stead of the Industrial Technology Department and packaging minor coordinator.

The minor is offered through the Industrial Technology Department and is a natural outgrowth of packaging courses currently offered by the departments of Food Science and Nutrition, Graphic Communication, and Industrial Technology.

The program, open to all students, is designed to capitalize on theories and skills learned in other disciplines, thereby uniquely preparing students for success in the packaging industry — one of the largest manufacturing groups in the country.

Cal Poly is one of 17 U.S. universities offering a packaging curriculum.

Curricula focus of Cal Poly-IBM project

An effort to better integrate computer courseware into the nation's school curricula (from kindergarten through 12th grade) has been launched by Cal Poly and IBM.

Cal Poly was chosen because of its leading-edge computer-based education curricula, which blends traditional education courses with computer science offerings.

Two classroom laboratories have been established on campus utilizing IBM hardware and software. Under Dr. Bernard Troy, Cal Poly professor of education and project director, the complete range of IBM instructional courseware will be utilized by Cal Poly teacher candidates, and teachers and students from primary and secondary schools throughout the Central Coast.

Troy will be assisted by Dr. Robert Blodget of the Psychology and Human Development Department and other School of Professional Studies and Education faculty. They will travel throughout the state meeting with grade school and high school teachers to learn how they integrate computers into the everyday curriculum.

Plans call for the project to be completed by late this year or early in 1988. At that time results will be distributed nationally to assist others in teacher training.

Dr. Peter M. Dean, a former educator now IBM manager of courseware requirements for IBM Educational Systems, will be in San Luis Obispo on Wednesday, April 8, with the IBM project team to meet with President Baker and School of Professional Studies and Education officials to discuss the joint Cal Poly-IBM project.

Cal Poly to co-host two-day conference

The man who made the words "gene-splicing" and "biotechnology" famous will be the keynote speaker at a two-day conference at the Park Suite Hotel Friday and Saturday, April 3-4.

The program, "Entrepreneurial Management: New Technology and New Market Development," will be sponsored by the School of Business; the RGK Foundation of Austin, Tex.; Arthur Young International; and the California Engineering Foundation.

Dr. Herbert Boyer, co-founder of Genentech, Inc. and a professor of biochemistry at UC San Francisco, will discuss "Taking Science to the Marketplace" Friday afternoon. Concurrent sessions on Friday will be concerned with "Telecommunications: New Product Development for High Growth Companies."

"Creating New Markets From New Materials" will be the program to kick off Saturday's activities.

In addition to featured speakers, a number of discussions will be held with leading area business leaders mixing with their counterparts from around the country.

For additional information on the conference, please call the School of Business at ext. 2704.

Statistics Dept. will offer consulting services in spring

The Statistics Department provides a statistical consulting service to the university to facilitate research design and data analysis in a wide variety of disciplines. This service will continue during Spring Quarter.

Dr. Roxy L. Peck will be serving as the main consultant. She is available to help in design and analysis of faculty and student research projects. In addition, Dr. Peck will be available to lead semi-

nars or tutorials on requested topics and offer advice on various computer packages currently available at Cal Poly. If there is some special area concerning statistical inference that is of interest to a group in your department, feel free to contact her to arrange possible lectures on that subject.

Faculty members or students interested in utilizing the consulting service are encouraged to contact Peck, Computer Science 210, ext. 2971 or leave message at 2709.

Walk-in Consulting Hours:

Mon. & Wed.1:10-3 pm

Friday by Appointment

Office Hours for Students

Mon. & Wed.3:10-4 pm

Tues. & Thurs....9:10-9:30 am; 3:10-4 pm

Consulting by Appointment

Appointments may be scheduled by calling during walk-in consulting hours or during office hours for students.

Slide presentation scheduled April 9

Bob Hoover, professor of Social Sciences, will give a slide presentation titled "The Archaeology of Mission San Antonio" to the University Club at noon, Thursday, April 9, in the Faculty/Staff Dining Room.

Dr. Hoover has conducted a summer archaeology workshop at Mission San Antonio de Paudua in southern Monterey County for the past 12 years. Mission San Antonio was once part of the Hearst Ranch holdings and is now on the Fort Hunter Liggett military reservation.

Hoover's work has received international attention. He is a member of the California State Historic Resources Commission.

School counselors will meet April 3

A former high school guidance counselor whose story has made national headlines and a well-known attorney will be featured at the third annual statewide Counselors Conference at Cal Poly on Friday, April 3.

The day-long program at the Alumni House is sponsored by Student Academic Services and its theme is "Focus on Educational Equity."

One of the keynote speakers will be George Shirley, a former teacher and counselor at Alisal High School in East Salinas. His strong belief in the academic potential of underrepresented students produced an unprecedented 84 students accepted at four-year colleges and universities in the fall of 1986, including nine at Ivy League colleges.

Shirley was not rehired and has become the subject of national media attention. Hallmark's Hall of Fame recently bought the rights to his story, and the TV production will be seen next fall.

He will be sharing the platform with a current Alisal counselor, Pamela Bernard. They will be examining the counselor's impact on minority students curriculum planning. In addition, they will offer tips for minority students on applying to college.

The other featured speaker will be Susan Brown, attorney for the Mexican American Legal Defense of Educational Funds (MALDEF). She will discuss what universities should be doing to assist undocumented students.

Approximately 50 high school and community college counselors from throughout California will attend the conference. They will also hear about efforts to help underrepresented students gain admission to Cal Poly.

Who, What When, Where

Lizbeth Ceaser, *Education*, presented a paper at the Fall 1986 Conference of the California Educational Research Association. This paper, titled "Active Reading Methods," has been requested for inclusion in the journal *Resources in Education* by the ERIC Clearinghouse of the Educational Testing Service.

George Gowgani, *Crop Science*, has been elected president of the 2,000-member California Weed Conference.

Artemis Papakyriazis, *Economics*, is the author of an article, "On Recursive Estimation for Economic Research: The Multiple Equations Case," accepted for publication in *Kybernetes*, the International Journal of Cybernetics and General Systems.

Mary Beth Armstrong, *Accounting*, wrote an article for the Spring 1987 issue of *The Journal of Accounting Education*. The title is "Moral Development and Accounting Education."

John H. Harris, *Natural Resources Management*, had an article, "Progressive Waste Management," published in the February 1987 issue of *Park Maintenance and Grounds Management Journal*.

Mark Kauffman, *Art and Design*, gave the commencement address to the winter graduating class of Brooks Institute of Photography in Santa Barbara. He was also given an honorary Master of Science degree in professional photography. He was called "one of the pioneers of modern photography."

Pamela Cook Miller, *Speech Communication*, performed "Will You Dance, Miss Austen?," a one-woman show based on the life and works of Jane Austen, for the Western Speech Communication Association annual convention in Salt Lake City, and for the Jane Austen Society of the Southwest annual meeting at the Huntington Library, Pasadena.

John Snetsinger, *History*, had his essay, "Theodor Herzl Foundation," included in a volume by Greenwood Press titled *Jewish American Voluntary Organizations*.

Mary La Porte, *Art and Design*, recently had neon sculpture displayed in an invitational fine art exhibit, "Art from the Heart," at Sonoma State University Gallery.

James H. Nash, *Student Health Services*, was a member of two roundtables on Administrative Issues and AIDS at a national conference on AIDS and the College Campus at UC Berkeley. The conference was sponsored by the American College Health Association, the State of California Health Services, and UC Berkeley. It was attended by physicians, nurses, health educators, and administrators from all over the U.S. and Canada.

John H. Harris, *Natural Resources Management*, published an article, "How Progressive is Your Park Management?," in the Winter 1987 issue of *California Parks and Recreation*.

Tim O'Keefe, *Natural Resources Management*, received a \$10,000 grant from the California Department of Forestry for a study of the programs and operations of the California Urban Forestry Council.

Francisco Curiel, *Upward Bound*, was invited to speak at the Society of Hispanic Professional Engineers National conference in Los Angeles. The topic was "Increasing Effectiveness Through Cooperation."

Sarah Lord, *Home Economics*, gave a presentation on helping pre-service students become Future Homemakers of America advisers at the Western Regional meeting of Home Economics Teacher Educators in Reno.

Colleen DeMartin, *Home Economics*, gave a presentation "Lighting in Your Home" to a women's group.

Robert L. Hoover, *Social Sciences*, was reappointed by Gov. Deukmejian to a four-year term as a member of the State Historical Resources Commission. Hoover is also serving on the Task Force for the State Historical Resources Plan of the Office of Historic Preservation.

Court Warren, *El Corral*, is among the first to earn official recognition as a Certified Store Professional through a new National Association of College Stores program designed to raise the standards of the college store profession.

Bette Tryon, *Psychology and Human Development*, spoke at the National Association for the Education of Young Children (NAEYC) Conference in Washington, D.C., and at the California Association for the Education of Young Children (CAEYC) Conference in Fresno. The topics were "A Developmental Approach to the Preschool Curriculum" and "A New Creation of Songs for Peace and Cultural Awareness."

Mike Malkin, *Theatre and Dance*, has learned his play "Tides" will receive a staged reading at the 21st Street Theatre in Los Angeles. In addition, the play is a finalist in the Los Angeles theater's National Playwriting Contest.

David Henry, *Speech Communication*, is the author of two chapters, "Mario Cuomo" & "Barbara Jordan," in the book *American Orators of the Twentieth Century*, Critical Studies and Sources, Greenwood Press, 1987.

Albert Censullo, *Chemistry*, presented a three-day training session on sampling and analysis of air toxics to the Toxic Substances Control Division of the California Department of Health Services in Sacramento.

A. Charles Crabb, *Crop Science*, talked to the local chapter of the California Agricultural Consultants Association about managing bird pests in agricultural crops.

Nancy E. Loe, *Special Collections*, completed a Library Needs Assessment Survey for the Hearst San Simeon State Historical Monument. The 142-page document was co-authored with Denise Fourie. **Mary Weaver**, *Special Collections*, was involved with the research on the project.

Michael Hordeski, *Electronic and Electrical Engineering*, participated in a workshop, "How Can a Small Business Survive Against Big Business?" Hordeski's section was titled "How Can Computers Enhance a Small Business." The workshop was sponsored by the Atascadero Chamber of Commerce.

Eric Johnson, *Art and Design*, had his photographic work included in the exhibition, "Facets of the Collection: Photographs from the Last Ten Years," at the San Francisco Museum of Modern Art.

Robert A. Lucas, *Graduate Studies, Research and Faculty Development*, had an article published in *Grants Magazine* titled "Innovations Part III: No Principal Investigator Will Call."

Stan J. Dundon, *Philosophy*, had an article, "On the Cultivation of Morals," published in the March 7, 1987 issue of the *California Farmer*.

Math honor society to meet at Cal Poly

The national Mathematics Honor Society, Kappa Mu Epsilon, will hold its 26th Biennial Convention today through Saturday, April 2-4. More than 200 students and instructors are expected to attend.

President Baker and ASI President Kevin Swanson will welcome delegates at the opening session on Friday, April 3, in Chumash Auditorium.

The main feature of the convention is the presentation of 18 student papers. The gathering concludes Saturday evening with a banquet featuring an address by Donald Gibson, a Cal Poly alum and member of the university's KME chapter.

The faculty sponsor for the chapter is Dr. Adelaide Harmon-Elliott. She is also one of the society's six regional directors. Math professor George Mach, who founded the university's KME chapter, is the society's national secretary. He is completing 21 years as a national officer of the society.

'Books at High Noon' will begin April 15

Paul T. Adalian Jr. of the library will kick off Spring Quarter's Books at High Noon series when he reviews *Errol Flynn: The Untold Story* by Charles Higham, and *Errol Flynn: A Bio-Bibliography* by Peter Valenti. His presentation is scheduled for Wednesday, April 15, in the Faculty/Staff Dining Room and includes video clips that highlight Flynn's fencing and athletic prowess, as well as his on-screen love affairs with Olivia de Havilland.

The Books at High Noon program is sponsored by the Kennedy Library. All presentations are held on Wednesdays at noon in the Faculty/Staff Dining Room.

Speakers scheduled for Spring Quarter include: John Harrington of the English Department review-

ing *A Cast of Killers* by Sidney D. Kirkpatrick on April 22; Melody DeMeritt, School of Business, *The Handmaiden's Tale* by Margaret Atwood, April 29; Glenn Irvin, Academic Affairs, *Cultural Literacy: What Every American Needs to Know* by E.D. Hirsch Jr., May 6; Mike Wenzl, English, *Alexander Pope: A Life* by Maynard Mack, May 13; and Pat Harris, Purchasing, *The Prince of Tides* by Pat Conroy, May 20.

Position Vacancies

Vacant staff positions at Cal Poly and the Cal Poly Foundation are announced in this column and are posted outside the respective offices. Contact those offices (State: Adm. 110, 805-546-2236 — Foundation: mobile unit near the Fire Department (805-546-1121) for applications and additional position details. Both Cal Poly and the Foundation are subject to all laws governing affirmative action and equal employment opportunity. All interested persons are encouraged to apply.

State

CLOSING DATE: 4-15-87

Programmer I, \$1069-\$1285.50/month; half-time, Accounting.

Candidates for positions on the faculty of the university are presently being sought, according to Jan Pieper, director of personnel and employee relations. Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CLOSING DATE: 4-16-87

Lecturers (part-time), salary approximately \$4,989/year for assignment of 12 units/year (adj. according to actual number of units assigned, experience, and progress toward master's degree), Computer Science. For Fall, Winter and Spring Quarters 1987-88. Requires concurrent enrollment in department's graduate program. Teaching experience desirable. Contact department for specific requirements.

Lecturers (part-time), salary commensurate with qualifications, experience and time base, Computer Science. Appointments for Fall and/or Winter and/or Spring and/or Summer, 1987-88 to teach lower division computer science courses. Candidates should possess an M.S. in computer science. Preference given to those with demonstrated experience in college/university teaching and/or industrial experience in field.

CLOSING DATE: 4-24-87

Lecturers (part-time), salary commensurate with qualifications, experience and time base, Political Science. Possible part-time positions for Fall, Winter, Spring and Summer Quarters 1987-88 to teach lower or upper division courses in political science. Ph.D. preferred; master's degree required.

CLOSING DATE: 4-30-87

Lecturers (part-time), salary commensurate with qualifications, experience and time base, Biological Sciences. Possible temporary part-time positions teaching departmental courses as determined by need during 1987-88 academic year, beginning Summer 1987. B.S. in biological sciences/related discipline required; enrolled graduate students preferred.

Lecturers (part-time), salary commensurate with qualifications, experience and time base, Civil and Environmental Engineering. Part-time positions teaching departmental courses for

Summer, Fall, Winter and/or Spring Quarters 1987-88. B.S. or M.S. required; teaching and industrial experience in the discipline preferred.
